PROFESSIONAL SUMMARY

IT Support and Security professional with 2+ years of hands-on experience in end-user support, identity and access management, and incident management in SLA-driven environments. Experienced in administering Microsoft Entra ID (Azure AD) and Active Directory, managing user provisioning and access control, and resolving security-related incidents using ServiceNow. Holds Microsoft Azure certifications and is actively pursuing CompTIA Security+. Seeking to transition into a Tier 1 SOC Analyst or IT Security Analyst role to apply technical skills in threat detection, identity security, and endpoint protection.

TECHNICAL SKILLS

Identity & Access Management: Microsoft Entra ID (Azure AD), Active Directory, User Provisioning, Access Control, Role-Based Access Control (RBAC), Account Lifecycle Management, Privileged Access, Least Privilege Principle

Security Tools & Platforms: ServiceNow (Incident & Ticket Management), Microsoft Defender, Azure Security Center, PagerDuty, Dynatrace

Operating Systems & Endpoints: Windows 10/11, macOS, Windows Server, Linux/UNIX (Basic), Laptop Imaging & Configuration, Endpoint Troubleshooting

Networking & Protocols: TCP/IP, VPN, DNS, DHCP, Remote Desktop Protocol (RDP)

Cloud Platforms: Microsoft Azure, Microsoft 365 (Exchange Online, Teams, SharePoint, OneDrive)

Scripting & Databases: Python (Basic), SQL, Oracle SQL

Frameworks & Methodologies: ITIL, Incident Response, SLA Compliance, Root Cause Analysis, Change Management, Knowledge Base Documentation

PROFESSIONAL EXPERIENCE

End User Technician | Equifax, North York, ON

April 2026 – Present

- Administer user accounts, groups, and access permissions using Microsoft Entra ID (Azure AD) and Active Directory, enforcing least privilege principles and role-based access control (RBAC) to maintain identity security across the organization
- Monitor and manage IT security and support tickets within defined SLA requirements using ServiceNow, ensuring timely resolution, accurate documentation, and proper escalation of security-related incidents
- Configure and image new laptops for employee onboarding using standardized OS deployment, software installation, and Group Policy enforcement, ensuring endpoint security compliance from day one
- Perform user provisioning and deprovisioning, including account creation, access modification, and offboarding procedures in line with security policies to prevent unauthorized access
- Diagnose and resolve hardware and software issues for end users in Windows environments, identifying patterns in recurring incidents to support proactive threat and vulnerability management
- Maintain detailed records of incidents, resolutions, and asset configurations, contributing to knowledge base development and root cause analysis to improve security posture
- Collaborate with IT and security teams on infrastructure projects, technology refresh initiatives, and policy enforcement rollouts

Technical Support Advisor | Concentrix, St. Catharines, ON

June 2024 – March 2026

- Delivered Tier 1 IT support to end users, resolving hardware, software, and network-related incidents using CRM ticketing systems while consistently meeting SLA requirements in a high-volume environment
- Diagnosed and resolved Windows and macOS issues including application errors, network connectivity failures, and user access problems, applying structured troubleshooting methodologies
- Logged, tracked, and escalated incidents through ticketing tools, maintaining accurate documentation and knowledge base updates to support continuous improvement and incident response processes
- Maintained detailed records of customer interactions and resolutions to enable root cause analysis and reduce repeat incidents
- Consistently achieved or exceeded key performance metrics including First Call Resolution (FCR), Customer Satisfaction (CSAT), and Average Handle Time (AHT)

- Built strong end-user relationships through active listening and clear technical communication, translating complex issues into understandable solutions

EDUCATION

Bachelor of Science, Computer Science | Brock University, St. Catharines, ON

January 2020 – December 2023

- Brock Entrance Scholarship recipient; Dean's List (2022)
- Relevant coursework: Network Security, Operating Systems, Database Systems, Software Engineering, Data Structures & Algorithms

CERTIFICATIONS

- Microsoft Certified: Azure Data Engineer Associate (DP-203)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- CompTIA Security+ – In Progress (Expected: 2026)
- Microsoft Certified: Security, Compliance and Identity Fundamentals (SC-900) – In Progress

KEY ACHIEVEMENTS

- Maintained a 95%+ First Call Resolution rate at Concentrix, reducing ticket backlog and improving end-user productivity in a high-volume support environment
- Achieved 100% Customer Satisfaction (CSAT) scores across multiple performance review cycles, demonstrating consistent delivery of high-quality technical support
- Standardized laptop imaging and deployment procedures at Equifax, reducing device setup time and ensuring consistent endpoint security configuration for new hires
- Proactively identified and resolved recurring access control issues through root cause analysis, preventing repeat incidents and improving identity security practices
