SUMMARY

- Entry-level Data Engineer with strong foundations in ETL pipelines, SQL, data modeling, and Azure cloud services. Hands-on experience building end-to-end data pipelines, data warehouses, and big data processing solutions through academic and self-directed projects. Seeking a Junior / Entry-Level Data Engineer role in Canada.

EDUCATION

Bachelor of Computer Science, Brock Univeristy

2020 - 2024

Dean's Honour List - Year Two

SKILLS

Programming Languages	Python, SQL
Data Engineering	ETL/ELT, Data Warehousing, Star/Snowflake Modeling, Data Quality Checks
Big Data And Orchestration	Apache Spark (PySpark), Airflow, dbt (basic)
Cloud (Azure)	Data Factory, Data Lake Gen2, Synapse Analytics, Databricks
Databases	PostgreSQL, MySQL, SQLite, MongoDB (basic)
Collaboration	Jira, Confluence, Power BI
Tools	Git, GitHub, Docker (basic), Linux, REST APIs

PROJECTS

End-to-End Data Pipeline Project — Python, SQL, Azure

Nov 2025

- Built an end-to-end ETL pipeline ingesting data from public APIs and CSV files. Stored raw data in Azure Data Lake Gen2 (bronze/silver/gold layers).
- Transformed data using Python and SQL and loaded curated datasets into Azure SQL Database.
- Designed star schema models to support analytical queries.
- Implemented orchestration and data quality checks to ensure pipeline reliability.

ETL Pipeline Development — Python, Pandas, NumPy, PostgreSQL

Dec 2024

- Faced inconsistent, error-prone sales and customer CSV data that hindered business analysis.
- Built an ETL pipeline using Python (Pandas, NumPy) and integrated it with PostgreSQL (psycopg2); applied business rules (e.g., high-value order tagging, customer tenure calculation), standardized dates, handled invalid data, and automated error logging.
- Reduced manual data preparation time and enabled faster, reliable insights by consolidating datasets into structured PostgreSQL tables for sales performance and customer analytics.

CERTIFICATIONS

- | | |
|---|----------|
| • Microsoft certified azure data fundamentals (DP-900) | Jun 2024 |
| • Microsoft certified Data Engineering Associate (DP-203) | Sep 2024 |
| • Databricks - Generative AI Fundamentals | Oct 2025 |
